

UNDER PRESSURE

W and C Series Switches

Receive GOST R (Russia) Certification

BETA W and C series switches have recently received GOST R certificates of conformity, (POCCNL MJ14. B00132) for Explosion Proof / Flame Proof instrumentation.

This certificate approves the W and C series for use in hazardous locations and insures that these devices adhere to GOST R 51330.0, 51330.1 and 51330.10 Flame Proof regulations.

As a result of acquiring this technical certificate, a GOST R RTN (Rostekhnadzor - The Federal Service for Ecological, Technological and Nuclear Supervision) Permit for use in the Russian Federation has also been granted. Permit No. POCCNL.Ah150.B11200 allows the W & C series BETA switches as well as the B, Z and V series to be used in appropriate pressure switch applications in the Russian Federation.

These two vital documents help open the door for BETA switch products in Russia.

If you have pressure / temperature projects in Russia that require GOST R Certificates, BETA has your solution.

W-Series with GOST Approval

Gost R Certificate for Hazardous Locations

Gost R Permit
